Schedule F (Form 990) 2013 Part V - Additional Information

MicroFinance Transparency addresses the issue of transparent pricing in the microfinance industry. We work internationally on a country-by-country basis. Our methodology consists of four main components: pricing disclosure, training and education, policy advisory, and advocacy.

MicroFinance Transparency enables transparent communication among market players on the prices of microcredit products. We present information on credit products in a clear, consistent fashion so that all stakeholders can work with a full understanding of the true prices paid by clients. Additionally, we promote the use of Annual Percentage Rate (APR) and Effective Interest Rate (EIR) as standards for communicating pricing that allows comparison between products.

MicroFinance Transparency provides training and education to a broad range of stakeholders to ensure that transparency leads to a strengthening of the microfinance industry. Our pricing experts train microfinance institutions, investors and donors, regulators and industry support organizations at workshops and conferences globally. We disseminate educational materials to improve understanding of the concept and function of interest rates and product pricing.

MicroFinance Transparency works with regulators and policymakers of microfinance markets to support development of effective policies for pricing disclosure and client protection. We provide regulators with training, share examples of effective policy, and facilitate discussion between regulators globally. Our goal is to provide regulators with knowledge and skills to implement policies that promote pricing transparency for the benefit of all microfinance market players.

MicroFinance Transparency partners with other industry initiatives to further the discussion on transparency and client protection.

MicroFinance Transparency facilitates industry-wide participation in the process of developing standards for transparent and responsible pricing.
